

MEDICAL TESTS BEFORE THE SURGERY (general anaesthesia)

To do:

- **Blood type (IMPORTANT; you need to provide 2 separate confirmed tests taken in 2 independent laboratories)**
- morphology
- APTT, INR (coagulation factors)
- Electrolytes /Na & K/
- Glucose
- HBS, HCV
- General urine test
- Creatinine
- T3, T4, TSH

And any additional tests indicated at a personal consultation with the surgeon.
