

PREOPERATIVE GUIDELINES

- 10 days before the surgery DO NOT take any medications such as Aspirine and similar in order to avoid excessive bleeding (the rule also applies to any anticoagulants)
- On the day of the surgery patient needs to be in a stable condition, generally healthy, without skin/mouth infections (such as herpes)
- On the day of the surgery, patient should stop eating 6 hours prior the surgery and stop drinking 4 hours prior the surgery (this also applies to chewing gum)
- Payment for the surgery and post operative care is done in cash only, before the surgery
- Important notice: scheduled time of the surgery is subject to change (final surgery time is confirmed by phone by the reception 2 days before the scheduled surgery; if by any chance we are unable to reach you by this time – do not hesitate to contact us at 0048 728 840 465)
- On the day of the surgery, please dress comfortably, do not take any jewellery, if you stay our clinic overnight – please do not forget to take your personal cosmetics, toothbrush, hair tie etc.
- On the day of the surgery, it is recommended to arrive at the Clinic with a completed surgery procedure informed consent form (it is available on our website <http://drwitwicki.pl/strefa-pacjenta/> or at the reception of our Clinic) – if you have any questions, please do not hesitate to contact us

After the surgery :

- Please make sure a friend or an acquaintance is ready to pick you up from the Clinic the next day after the surgery
- It is forbidden to drive for at least 24 hours after the surgery
